- Registered medical practitioner in General Medical Council (GMC), Full registration. Registration number 7550618. Registered on 24/10/2017.
- Fellow of International Association of Study of Internal Fixation of Fractures, Switzerland.
- Registered Medical Practitioner of Indian Medical Council & TC MC, No: 20191 (1992)
- Registered Orthopedic specialist of Indian Medical Council & TC MC (1996)
- Associate membership in Society of International committee on trauma (SICOT) from 1998 to 2002.
- Permanent membership in World orthopedic concern [LM-364]
- Qatar medical license (QCHP): Number – 9025, (Orthopedic Surgery)
- Member of British medical council. Membership number 3182897.
- Dubai Health authority (DHA) eligibility Ref.: DHA/LS/2852016/603907
- Permanent national life membership in Indian Medical Association [IMA KRL/5716/15/52/74257/1999-2000].
- Permanent membership in Indian Orthopedic Association [IOA LM-4381].
- Permanent membership in Kerala Orthopedic Association [KOA LM-305].

CAREER PLANS:

- I would like to work as a specialty doctor (registrar ST3+) in Trauma and Orthopedic Surgery, gain sufficient experience, pass FRCS Ortho and subsequently work as a consultant in Trauma and Orthopedic Surgery.

CURRENT EMPLOYMENT:

August 2018 onwards

**Specialty Doctor (Registrar - SpR O&T ST3+) Orthopedics & Trauma,
East Surrey hospital, NHS Trust, Redhill, UK**

Manages orthopedic patients in OP, IP and ER and do orthopedic minor and major procedures in ER, OP and operation theatre, as specialty register and attends departmental meetings, trainings and rounds, and conducts audits and research and also supervises house officers, foundation doctors and students.

PREVIOUS EMPLOYMENT:

June 2018 – To July 2018

Locum specialty doctor in orthopedic surgery and trauma. United Kingdom

Worked in multiple hospitals in UK as locum specialty doctor in orthopedic surgery and trauma, NHS, UK.

May 2018 – To June 2018

**Posted in Sports medicine, arthroscopy and arthroplasty center,
Registrar - SpR O&T ST3+
Birmingham, UK.**

As a senior and independent orthopedic surgeon (upper middle grade in UK), I discussed, maintained logbook and observed Knee, Shoulder and ankle arthroscopy procedures including semitendinosus ACL graft, meniscal suturing and rotator cuff repair, and hip and navigational or computer assisted knee arthroplasty surgeries at Spire Little Aston hospital, Birmingham under Mr. Ashvin Pimpalnerkar, who is a consultant Orthopedic Surgeon and sports medicine surgeon and is the Programme director for orthopedic training at Good Hope hospital, NHS Trust, Birmingham.

October 2017 – April 2018

**Senior Clinical Fellow (Registrar - SpR), Major Trauma
At Queens medical center, Nottingham University Hospital,**

Nottingham, United Kingdom

Worked as a Registrar, at Major trauma department of Queens' medical Centre, Nottingham University Trust, NHS, UK from October 2017 onwards. My duties at ED recess included, attendance of major trauma emergency calls, doing primary surveys, conducting emergency investigations, including arterial blood gases, full trauma CT etc., stabilization of patients, in co-ordination with ED team, carrying out emergency procedures such as intercostal tube etc., consulting and contacting necessary specialists and activating major hemorrhage protocol. I was also managing ward major trauma patients in the wards, ICU and HDU, co-coordinating and liaising with around 30 different specialties related with major trauma, ED, trauma ICU and HDU staff, rehabilitation team and para medical staff including physiotherapists, pain team, critical care outreach team etc., teaching medical students and supervising junior clinical fellows, doing secondary and tertiary surveys in ward and ward procedures, co-operating with the audits and research programs, attending daily major trauma and orthopedic and trauma combined meetings and major trauma board and presenting and discussing the cases. I was assisting the major trauma consultants during rounds. My duties also included, ordering investigations and preparing discharge summaries.

April 2004 – To October 2017 (except 2016)

Specialist – Orthopedic Surgery

Sushrusa Hospital, Kottayam, India

I successfully managed emergency and trauma as part time orthopaedic surgeon at the outpatient clinic, emergency room and the inpatients of this hospital. I also did many major surgeries like plating, bone grafting, Austin More hip prosthesis, tumor excision, implant removal, nailing etc. and minor procedures like knee aspiration, tendon suturing, I&D's, management of deep injuries, plastering, local steroid infiltrations, strapping and reduction of displaced fractures and dislocations etc. successfully in addition to the successful treatment of many patients with low back pain, knee pain, arthritis, infection etc. at outpatient clinic or as in patients in this hospital. I was also involved in teaching and conducting various seminars and orthopedic state and national organizational activities. I was also involved in managerial and administrative aspects of the running of the department and I regularly attended consultant and clinical governance meetings.

April 2017 – July 2017

Government M.O. and Specialist – Orthopedic Surgery

Government Hospital, Changanassery, India

I successfully managed emergency and trauma as part time government medical officer at the outpatient clinic, emergency room and the inpatients of this hospital. I also did orthopedic and

related surgeries successfully, in addition to the successful treatment of many patients with low back pain, knee pain, arthritis, infection etc. at outpatient clinic or as in patients in this hospital. I was also involved in teaching and conducting social health awareness classes. I was also involved in managerial and administrative aspects of the running of the department and I regularly attended consultant and clinical governance meetings.

Jan 2016 – December 2016

**Doctor - Orthopedic Surgery (Specialist – Orthopedic Surgery)
Al Shefa Hospital and Roya Medical Services, Doha, Qatar**

Dr. Jimmy Maliakal Moyalan Lonappan worked. under medical license of Supreme council of Health (QCHP), Qatar, as medical doctor and orthopedic surgeon at Al Shefa hospital and Roya Medical services, Doha, Qatar, from 15/01/2016 to 25/12/2016. Duties of Dr. Jimmy included, reception of patients presenting to emergency, resuscitate and stabilize them, and conduction trauma and orthopedic outpatient clinic in the evening. With the deputation from Roya medical services, Dr. Jimmy, worked as orthopedic surgeon and emergency medical officer, in the clinics of Qatar rail and Lusail entertainment city. Under the direction of QHSE director, supervised clinics and inspected and coordinated, the orthopedic and safety activities, including directing of nurses and safety officers, training of Staff and workers, orthopedic treatments, in coordination, with QHSE headquarters.

February 2015 – December 2015

**Specialist – Orthopedic Surgery
Idukki district cooperative Hospital
Thodupuzha, India**

The hospital serves as a reference hospital for all different kinds of major orthopedic traumatic and non-traumatic cases. I successfully managed the emergency orthopaedic and trauma patients as orthopaedic surgeon at the outpatient clinic, emergency room and the inpatients of this hospital. I also did many major surgeries like plating, bone grafting, Austin More hip prosthesis, tumor excision, implant removal, nailing etc. and minor procedures like knee aspiration, tendon suturing, I&D's, management of deep injuries, plastering, local steroid infiltrations, strapping and reduction of displaced fractures and dislocations etc. successfully in addition to the successful treatment of many patients with low back pain, knee pain, arthritis, infection etc. at outpatient clinic or as in patients in this hospital. I was also involved in managerial and administrative aspects of the running of the department and I regularly attended consultant and clinical governance meetings.

Mar 2012 – Jan 2015

**Specialist – Orthopedic Surgery
P.M.C. Hospital, Erattupetta, India**

I successfully managed emergency, trauma and orthopaedic patients as part time orthopaedic surgeon at the outpatient clinic, emergency room and the inpatients of this hospital. I also did

many major surgeries like plating, bone grafting, Austin More hip prosthesis, tumor excision etc. and minor procedures like knee plastering, local steroid infiltrations, strapping and reduction of displaced fractures and dislocations etc. successfully in addition to the successful treatment of many patients with low back pain, knee pain, arthritis, infection etc. at outpatient clinic or as in patients in this hospital. I was also involved in teaching and conducting various seminars and orthopedic state and national organizational activities.

Jan 2011 – Dec 2014

Specialist – Orthopedic Surgery

George Matthan Mission Hospital

Mallapilly, India.

I did many major surgeries like plating, implant and wire fixations, revision amputations etc. and minor procedures like knee aspiration, tendon suturing, plastering, local steroid infiltrations, strapping and reduction of displaced fractures and dislocations etc. successfully. I also successfully managed many patients with low back pain, knee pain, shoulder pain, cellulitis etc. at outpatient clinic or as in patients in this hospital. I successfully managed emergency, trauma and orthopaedic patients as part time general practitioner and orthopaedic surgeon at the outpatient clinic, emergency room and the inpatients of this hospital. I was also involved in managerial and administrative aspects of the running of the department and I regularly attended consultant and clinical governance meetings.

Feb 2004 - Dec 2013

Specialist – Orthopedic Surgery

C.M.C. Hospital, Samcranthy, India.

I successfully managed emergency, trauma, surgical and medical patients as part time general practitioner and orthopaedic surgeon at the outpatient clinic, emergency room and the inpatients of this hospital. I also did many major surgeries like plating, bone grafting, Austin More hip prosthesis, tumor excision, implant removal, nailing etc. and minor procedures like knee aspiration, tendon suturing, I&D's, management of deep injuries, plastering, local steroid infiltrations, strapping and reduction of displaced fractures and dislocations etc. successfully in addition to the successful treatment of many patients with low back pain, knee pain, arthritis, infection etc. at outpatient clinic or as in patients in this hospital.

May 2005 - Sep 2008

Specialist – Orthopedic Surgery

Karipal hospital, Kalathipadi, India

The hospital serves as a reference hospital for all different kinds of major orthopedic cases. My duties included initial reception of orthopedic and trauma patients presenting to emergency, resuscitate and stabilize them and conduction trauma and orthopedic outpatient clinic. I did many major surgeries like plating, implant and wire fixations, revision amputations, bone grafting, tumor excision, hip prosthesis, nailing, EXFIX, DHS, percutaneous screws etc. and minor procedures like knee aspiration, tendon suturing, plastering, local steroid infiltrations, strapping

and reduction of displaced fractures and dislocations etc. successfully. I was also involved in teaching, conducting various medical seminars, camps and orthopedic organizational activities. I was also involved in managerial and administrative aspects of the running of the department and I regularly attended consultant and clinical governance meetings.

Oct 2003 to Feb 2004

Specialist – Orthopedic Surgery

KMC, Vadavathoor, Kottayam, India.

I successfully managed emergency, trauma, surgical and medical patients as part time general practitioner and orthopaedic surgeon at the outpatient clinic, emergency room and the inpatients of this hospital. I also did many major surgeries like plating, bone grafting, Austin More hip prosthesis, tumor excision, implant removal, nailing etc. and minor procedures like knee aspiration, tendon suturing, I&D's, management of deep injuries, plastering, local steroid infiltrations, strapping and reduction of displaced fractures and dislocations etc. successfully in addition to the successful treatment of many patients with low back pain, knee pain, arthritis, infection etc. at outpatient clinic or as in patients in this hospital

Aug 2002 – Oct 2003

Teaching staff in Medical College and Specialist – Orthopedic Surgery

Orthopedics' Department, Kottayam, India

The hospital serves as a reference hospital for all different kinds of major medical and surgical emergencies and orthopedic cases. As a teaching staff I supervised the post graduate students in managing and stabilizing emergency cases, documentation of medico legal cases, emergency and routine surgeries and management of patients in outpatient clinics and wards. I did or supervised many major surgeries especially cold cases like osteomyelitis debridement, spine discectomies, surgical reduction of chronic dislocations, arthroplasties etc. successfully. I was also involved in managerial and administrative aspects of the running of the department and the organization of medical seminars and teaching programs and I regularly attended consultant and clinical governance meetings. I took general and orthopedic classes to MBBS students as lecturer in medical college.

Sep 2000 - Aug 2002

Specialist – Orthopedic Surgery

Lal Memorial Hospital, Irinjalakkuda, India

This is a modern multispecialty hospital with busy emergency room. I was involved in conservative or surgical management of trauma and orthopedic cases. During my tenure, I was involved in various academic activities like presenting in state conferences and hospital clinical meetings and doing clinical research. I was also involved in medical organizational activities including acting as Indian medical association branch joint secretary.

Feb 2000 – Sep 2000

Junior Specialist – Orthopedic Surgery

MBMM Hospital, Kothamamhalam, India

This is a 400 bedded multispecialty hospital with 24 hour busy emergency room and all modern amenities. I was working as part of a medical team dealing with emergency and trauma cases and management of orthopedic patients by conservative and surgical methods including major surgical procedures and implant surgeries.

Mar 1999 - Jan 2000

**Locum specialist of orthopedic Surgery
Multiple private hospitals in Kerala, India**

Worked as locum specialist of orthopedic surgery, in multiple private hospitals in Kerala, India, and also underwent multiple specialty level exams and their clinical and theoretical preparatory training.

Sep 1998 - Feb 1999

**Specialist – Orthopedic Surgery
Al Iqbal Hospital, Chentrapinny, India.**

My duties included initial reception of all patients presenting to emergency, resuscitate and stabilize them. I successfully managed emergency and trauma patients as orthopaedic surgeon at the outpatient clinic, emergency room and the inpatients of this hospital. I also did many major surgeries like plating, bone grafting, Austin More hip prosthesis, tumor excision, implant removal, nailing etc. successfully in addition to the successful treatment of many patients with low back pain, knee pain, arthritis, infection etc.

1998 June - August 1998

**Fellow for AO International (Specialist – Orthopedic surgery)
Zurich University Hospital, Zurich, Switzerland.**

Did FASIF (Switzerland) (Fellow of International Association of Study of Internal Fixation of Fractures, Davos, Switzerland), under Professor Otmar Trentz, traumatology department, Zurich University hospital. Obtained international training in the management of high velocity multi system traumatic injury cases, and their surgical treatment and was assisting the surgical cases in Operation Theater.

1998 Mar - June 1998

**Fellow for World Education Programme (Specialist – Orthopedic surgery)
Altatatten Kanton Hospital, Alstatten, St. Gallen, Switzerland**

Participated ‘world orthopedic education program of American orthopedic association’ under Dr. Med.Thomas Herron in Altatatten kanton hospital and also under Spine surgeons, at st.Gallen kanton hospital, Switzerland. I was given training in trauma emergency management and A.O. principles of fracture fixation. I was able to closely observe European bed side manners and hospital administration. I obtained training in arthroscopy and arthroplasty surgeries of hip, knee, shoulder, elbow and ankle. During my tenure, I visited AO international headquarters and

research Centre in Davos, Switzerland and visited W.H.O., Red Cross and U.N. headquarters in Geneva, Switzerland.

Sep 1997 – Feb 1998

Junior Specialist – Orthopedic surgery

Little Flower Mission Hospital, Angamaly, India

This is a 2000 bedded modern multispecialty and super specialty hospital with 24 hour busy emergency room and all modern amenities. I was working a part of a medical team dealing with emergency and trauma cases and management of orthopedic patients by conservative and surgical methods including major surgical procedures and implant surgeries. I was also managing inpatients and outpatient clinics and was involved in doing clinical research and teaching of nursing students.

July 1996 - Jul 1997

Orthopedic Surgery Registrar (SpR O&T)

Kovai Medical center, Coimbatore, India

Worked as P.G. trainee (and Registrar), for Diploma in orthopedics (DNB-Ortho, National board), at Kovai medical Centre, Coimbatore, India. I was trained in orthopedic trauma, arthroscopy and arthroplasty surgeries. Did “Review of clinical features and surgical analysis of 120 cases of lumbar discectomy”, as dissertation. As SpR O&T, managed patients in emergency room and wards and assisted surgical cases in theater. I was involved in scientific meetings, journal clubs, presentations and training programs. I was also seconded, for one month as medical officer in I.C.U. with around 20 beds having post traumatic orthopedic and neuro surgical patients and post-operative patients and also medical patients with stroke, heart attack, pneumonia, asthma, coma etc. I was managing patients on artificial ventilators, monitoring CVP, ECG and pulse oximeter and drawing samples for blood gas analysis and endo tracheal tube CO2 measurement. I was supervising the weaning of the patients from ventilator support and also doing procedures like endo tracheal intubation, inter costal tube fixation and starting central lines. I was managing asthmatic patients, patients with dehydration and electrolyte imbalance, monitoring myocardial infarction patients on thrombolysis and doing CPR including defibrillation.

July 1994 - June 1996

Orthopedic Surgery Registrar (SpR O&T)

Calcutta national medical college, India

Worked as P.G. trainee (and Registrar), for Post graduate diploma in Orthopedic Surgery (D`ortho) at Calcutta national medical college, India and passed the course. I was trained in orthopedic trauma and general orthopedic surgeries. As SpR O&T, managed patients in emergency room and wards and assisted surgical cases in theater. I was involved in scientific meetings, journal clubs, presentations and training programs.

Jul 1992 - Jun 1994

Locum S.H.O. (residential medical officer – general ward and emergency on call)

Multiple hospitals in Kerala, India

Worked as locum S.H.O. (residential medical officer - general ward and emergency on call), at multiple hospitals in Kerala, India. My duties included initial reception of all patients presenting to emergency, resuscitate and stabilize them. I also managed G.P. patients in outpatient clinics, attended ward calls and assisted specialists of different categories during ward rounds.

June 1991 - July 1997

Foundation doctor (compulsory rotatory residential internship – House surgeoncies’)

Government medical college, Thrissur, Kerala, India

Did foundation training or compulsory rotatory residential internship (C.R. R. I. or house surgeoncies’) from 01/06/1991 to 12/07/1992, in departments such as, medicine and allied specialties including general medicine, chest and T.B., dermatology and venerology, psychiatry, radio diagnosis, surgery and allied specialties including general surgery, ophthalmology and maxilla-facial surgery, orthopedics, E.N.T., anesthesiology, obstetrics and gynecology, child health and community health including immunization center, urban health center and primary health center.

PRESENTATIONS AND PUBLICATIONS

- Attended the Major Trauma and Orthopedics’ & Trauma combined meeting and also attended Multi-disciplinary team major trauma board every regular working days and participated in presentations and discussions at **QMC, Nottingham University hospital, UK during 2017 to 2018.**
- Presented a paper in state annual conference of Kerala orthopedic association held on 22 to 24/01/2016 at Thrissur, Kerala and the topic was **“Essential of disaster management for an orthopedic surgeon”.**
- Presented a guest lecture as national faculty in the national annual conference of Indian orthopedic association held on 9 to 14th December 2015 at Jaipur, Rajasthan and the topic was **“Essential of Management and behavior science for an orthopedic surgeon”.**
- Health Article in Malayala manorama newspaper in the second page of Sunday supplement (health area) on 20/03/11(**published globally**). The topic was on medical management and causes of road traffic accidents. The information was supplied by Dr. Jimmy M. L.
- Author of the article **‘Bach Ache – Causes and Solutions’** (Malayalam) which was published in Mangalam health and other magazines like Sankeerthanam etc. in 2009.
- Author of the article **‘road accidents and first aid’** Malayalam and English versions which was published in Mathrubhumi, Deshabhimany, Arogyadhany health magazines and other magazines like good news, lords lord etc. in 2008.

- Jan 2018 Attended training on blood clotting and blood transfusion, in relation with TEC Algorithm, at QMC, Nottingham University hospital, UK.
- Jan 2018 Observed REBOVA and ITACTIC studies at Emergency medicine RESUS of QMC, Nottingham University hospital, UK.
- Dec 2017 Attended training on latest type of fluid warmer and pump.
- Dec 2017 Attended training on blood gas analysis at QMC, Nottingham University hospital, UK.
- Nov 2017 Participated and obtained the certificate at the ‘welcome to UK Practice event’ for the newly registered doctors under General Medical Council, UK at the GMC headquarters, London, UK.
- Oct 2017 Attended trust I.T. training by Nottingham University hospital, UK.
- Aug 2017 ATLS of ACS – Advanced trauma life support provider course of American college of surgeons held in Kottayam, India.
- Jul 2017 IELTS test by British Council – Obtained 8 overall, 8.5 in reading, 8 in speaking, 7.5 in listening and 7 in writing.
- Nov 2016 ILS of ERC – Immediate life support provider course of European resuscitation society held in Doha, Qatar
- Sep 2016 Dubai health authority GP prometric pass: ID DHAE411280
- May 2016 Supreme council of health, Qatar prometric pass: DHAE411280
- Mar 2008 BLS - Basic Life Support Provider course by American heart Association
- Mar 2008 ACLS – Advanced cardiac Life Support Provider course by

American heart association

- Mar 2008 ITLS - Instructional trauma life support course by international trauma life support society
- Nov 2007 Disaster management workshop at ninth annual Emergency Medicine international conference of society for emergency Medicine, India held in Madras
- Sep 2005 Course on German Language from French Academy, Kottayam
- Aug 2004 ATLS – Advanced trauma life support trained provider course by trauma life support society of India.
- Sep 2003 CTIC (Continuing trauma instructional course) of KOA at Kottayam medical college.
- Aug 2003 CTIC - Continuing trauma instructional course at medical college, Calicut
- Aug 2003 Bangalore orthopedic Society clinical course at St. Johns medical college, Bangalore.
- Feb 2003 Instructional course on orthopedic clinical skills by orthopedic research foundation of India at Indore
- Jan 2003 Clinical training courses by Hyderabad orthopedic medical education society at Hyderabad
- Sep 2002 Clinical training courses by KOA held at Trivandrum and Trichur
- Oct 1999 Arthroscopy training at Asian sports medicine institute, Dader, Bombay by the premier and pioneering arthroscopic and Sports medicine orthopedic surgeon in India - Dr. Anand Joshy.
- Sep 1999 Shoulder course held at United hospital, Coimbatore
- Jun 1998 AO basic internationally ASIF recognized course in Bochum, Germany
- Apr 1998 Workshop on ‘Chondroplasty and absorbable Pins’ at Einsleiden, Switzerland
- Feb 1998 Course on internet & windows from Computer Park, Cochin-18
- July 1997 Completed Diploma of national board (DNB) of examination in orthopedic surgery one year course from Kovai medical Centre, Coimbatore during 1996-97, completed thesis and passed theory. I received training in arthroscopy, arthroplasty and spine surgery.
- Dec 1997 Arthroscopy workshop by Indian arthroscopy society at Kochi
- Dec 1996 Workshop on spinal instrumentation at Calcutta

- Dec 1995 Course on computer fundamentals & applications from 03-07 to 13-12, 1995 at Don Bosco Technical Institute, Calcutta
- Sep 1995 Club foot workshop by Indian foot society at Calcutta
- May 1995 Workshop on total hip and total knee arthroplasty by West Bengal orthopedic association at Calcutta

Personal statement

After gaining my primary medical degree (MBBS), I was working as Residential medical officer and General practitioner for around 2 years in India. After that, I passed post graduate diploma in orthopaedics (D-Ortho) from India. Following that, I completed diploma of national board of examinations (DNB Ortho) course from India and completed the thesis on “Review of clinical features and surgical analysis of 120 cases of lumbar discectomy”. I also completed I.C.U. training for two months. Then I did international fellowship (FASIF) in trauma and completed World orthopaedic education programme (WOEP) from Switzerland and a course on AO principles from Germany.

After that, I was working as Orthopaedic Surgeon in Kerala, India. I have 26 years’ experience as medical doctor, 22 years’ experience as orthopaedic Surgeon in India, experience of carrying out almost all different types of orthopaedic procedures and major surgeries, experience of working in emergency rooms, outpatient clinics, wards, minor and major operation theatres, I.C.U., labour camps and as a family doctor of medium or large multi-specialty private hospitals and clinics and government medical college as a teaching staff. My duties also included initial reception of patients presenting to emergency, resuscitate and stabilize them. I had been doing and is experienced and well versed, in all common orthopaedic traumatic and non-traumatic surgical procedures including plating, EXFIX, nailing, hemiarthroplasty, tumour surgery, osteomyelitis etc. I have taken additional training in arthroscopy, arthroplasty, paediatric surgery, pelvic surgery, hand surgery, plastic surgery and spine surgery and has some experience.

Presently I work as a Registrar (senior clinical fellow), at Major trauma department of Queens medical center, Nottingham University Trust, NHS, UK from October 2017 onwards. My duties at Emergency department (recess) included, attendance of major trauma emergency calls at ED, doing primary surveys, conducting emergency investigations, including arterial blood gases, TEG, radiography, full trauma CT etc., discussing with radiology specialists, stabilization of

patients by applying splints, blood transfusion etc. in co-ordination with ED doctors, anaesthetists, other specialists, case managers etc., documentation at ED, carrying out emergency procedures such as intercostal tube, suturing etc., consulting and contacting necessary specialists such as neurosurgeon, orthopaedic surgeon, plastic surgeon etc., activating major haemorrhage protocol and organizing ward admission or critical care admission, surgery etc. I was also managing ward patients in major trauma wards, major trauma patients in trauma ICU and HDU, as per the direction of consultants, co-coordinating and liaising with around 30 different specialties related with major trauma, major trauma consultants, ED, trauma ICU and HDU staff, rehabilitation team including consultant, physiotherapists and occupational therapists, junior clinical fellows and para medical staff including pain team, critical care outreach team, nutritionists, speech therapists, EXFIX care nurse, pharmacists etc. My duties also included, teaching medical students and supervising junior clinical fellow I was also doing, secondary and tertiary surveys in the ward, patient progress review, ward medical and surgical procedures and co-operating with the audits and research programmes. My duties also included, attendance of daily major trauma and orthopaedic and trauma combined meetings and major trauma board and presenting and discussing the cases. I was also attending other meetings, including mortality morbidity meetings. I was assisting the major trauma consultants during rounds, at major trauma wards, ICU, HDU and out-layers. My duties also included, obtaining patient consents and discussing with by standers, ordering investigations, writing medications and treatment orders, retrieving reports, preparing TTOs and discharge summaries, through trust web sites and documentations in different forms and patient case charts.

I worked in Qatar as an orthopaedic surgeon in 2016 My duties included management of trauma and orthopaedic patients at Al Shefa hospital, Qatar. By deputation from Al Shefa hospital, I supervised 5 Nurses` clinics and inspected and coordinated the trauma management and safety activities of 6 construction sites and 2 labour camps including directing of nurses and safety officers, training of staff and workers.

I obtained additional qualifications such as MBA (International Business), MA (Disaster Management), PGD HRM, PGD Sociology of Health and PGD Guidance and Counselling. For MA (Disaster Management) I did the thesis on “Impact of enforcement of S 129 M.V. mandatory motor cycle helmet act 1998 of Kerala on death rate due to road traffic disasters”.

I can fluently speak and write English, Hindi and Malayalam and has some skills in spoken Arabic, German, Tamil and Bengali Languages. I have done many other additional trainings including ILS, BLS, ACLS, ITLS and ATLS courses and workshops on Arthroplasty, Arthroscopy and Spine Surgery and also computer courses.

I served the Indian orthopaedic association as national executive committee member and Kerala orthopaedic association as State I.T. secretary and joint Secretary and served Indian medical association as joint secretary. I was managing medical web site and was instrumental in organizing many medical camps, emergency medicine and community medicine related seminars and was involved in medical or health teaching in colleges, police camps and nursing schools and for general community and medical students.

I have gained considerable skills and experience which has provided me with a solid education and preparation for a profession with an ability to deal with the entire spectrum of acute Major Trauma, orthopedic illness and injury, in all age groups. Orthopedic surgery has offered me the opportunity to be at the forefront of clinical care and to participate actively in making decisions involving team working and leadership, right from the onset of patient care. Practicing orthopedic surgery appeals to me as a humanistic, challenging field, offering the opportunity to provide immediate help to people in the most vital aspect of their lives: their health. Major Trauma and Orthopedic Surgery is an exciting lifelong learning experience with many opportunities. I want to be an active contributor of this area.

SOME ADDITIONAL INFORMATION

colleges in April 2014.

J. Medical internet activities of Dr. Jimmy M. L.

1). Discussion forum with 2000 medical and ortho links

Dr. Jimmy created a web site with around 2000 medical and orthopedic links, many patients Information and accident care links, fellowship links, facilities to upload files and photos of members and facility to see web casts. The site was linked to a discussion forum in MSN group and it had around 800 medical and related experts as members. The site was created in 2003. The site was created in such a way that just by looking at the home page of site, it was possible to know: what are the free medical and orthopedic or medical information headings available in net. The site was also acting as semi-official site for Kerala orthopedic association. The URL of the site was www.keralaorthopaedicsinternational.tk. Later the group migrated to 'multiply' and the present URLs are keralaorthopaedics.multiply.com and keralaorthopaedicsinternational.org. Dr. Jimmy Acted as manager of Kerala orthopedics international web site from 2003 onwards. These web sites contain many accident care links which are useful to general public.

2). Official site and I.T. Secretary post

Because of the inspiration obtained by the semi-official site of Dr. Jimmy M. L. Kerala orthopedic association allowed **Dr. Jimmy M. L. to create a new official web site** for Kerala orthopedic association and the URL of the site was www.keralaorthopaedicassociation.tk at 2005. A new post named state I.T.Secretary post was created by the association in 2005 & Dr. Jimmy acted as I.T.Secretary for 5 years. The site was linked to 'Kerala orthopedics international' site with 2000 links, KOA discussion site, notification area and 'clinical research instruments' sub site. The site has many accident care links, official files and photos and seminar reports. The 'clinical research instruments' sub site is useful for research work. The site was later improvised and the URL was changed (2007 to 2010) to keralaorthopaedicassociation.org.

3). Web site upgradation in 2011

A new personal web site of Dr. Jimmy M.L. was created www.doctorjimmy.net (old site was www.doctorjimmy.tk). The site contains links to face book, articles, seminar reports, consultation times and other important sites managed by Dr. Jimmy M. L.
