this site you can download orthopaedic text books, power point presentations and medical clip arts etc, post meetings, search and post rare conditions, search journals and recent advances. International ortho meeting information, fellowship links and live orthopaedic web casts are available through the site. Through general links we can search phone numbers, email addresses, tourism information and download news papers, softwares etc.

Through this email forum we can exchange professional queries and answers, post messages, intimate about orthopaedic seminars, workshops and meetings which we conduct by posting in the calendar and even publish our personal data and photos. We can share scanned images and clinical photographs by attaching to the message. The messages will be automatically mailed to your personal email box if you choose to do so or you can choose to read it on the web.

Please start active and useful orthopaedic discussions. The messages of discussions may go to the mail boxes of the members and also to the discussion area in the site and members with experience or knowledge of that particular discussion or problem can respond by replay messages. Please discuss difficult or rare cases which you see in your practice. You can keep your orthopaedic files which may be of benefit to others in 'members orthopaedic files'.
